Meeting Minutes
12th September 2017

Discussion Question

How can we make this a more social learning experience?

Class Dashboard
- A way for the class to celebrate class and student achievements.
- E.g. "Most improved student of the week!", "Jen just finished her homework!", "James, Jacob and Helen great team work in the maze game!"

User Profile
- Personal learning checklist (shows all the content they've learnt so far (e.g. for loops = tick)
- Can revise the learning content they've done in class (e.g. all the written material of the games will be accessible from here)
- See personal achievements → points and badges
